1.4 TOOLS

- html
- CSS
- javascript
- Forms

SECTION 2: WEBSITE ORGANIZATION

we have organized our website through clear and easily navigable pages, including a homepage that facilitates navigation to all other pages. the remaining pages are structured and organized, with each topic or recipe well-separated from others. this ensures a seamless and enjoyable experience for users, allowing them to explore content effortlessly

SECTION 3: TESTING

We wrote the code in HTML and then linked it to CSS and javascript and then tried it in a browser

SECTION 4 : LESSONS LEARNED

We learned how to configure CSS ,javaScript ,and how to design our pages with forms and visual Elements and graphics
